

Letter of Intent  
Board of Trustees  
Job's Daughters International ®

Linda D. Hendershot, PHQ, PGG, PGBG

It is my pleasure to present this letter to signify my desire to serve on the JDI Board of Trustees. I submit to the Delegates my professional and Job's Daughters highlights for review.

Professionally, I was raised in a self-employed family and was self-employed for many years. I have also worked in management roles for the retail, eldercare and finance industries. For the past 7 years I have been employed as the controller of a multimillion dollar construction company. I believe my management and financial professional background would greatly benefit JDI.

My experience serving on the Supreme Finance Committee for the past three years has made me acutely aware of areas of the organization that are in need of improvement. Both my professional and Job's Daughters experience will serve to promote financial security and aid in the development of growth opportunities for our members and the organization as a whole.

My desires, if elected to the BOT, would be to ensure decisions made are JDI Forward, making sure our young ladies futures are in every decision made. I would help to ensure financial stability for short term and more importantly long term successes of the organization. Any discussion made to improve this Order without the backing of financial accountability and direction, will fail. My areas of focus include long range planning, promotion, education, fundraising, and financial accountability. I believe our foundation needs to be strong in order to build on our successes.

In closing, Covid deterred our first 100 year anniversary, but I feel has made us re-energized for the next 100 years. My professional life plays a large part in my qualifications, however I would not have been as successful without the lessons that Job's Daughters has taught me. I am a grateful daughter, mother of 4 children, grandmother of 5 and 10 grand fur babies. I live in Missouri which the state motto is "Show Me" I would love to show you how I hope to improve this amazing Order that I adore. Thank you for your time and no matter what happens this organization will always have my heart and soul.

**Job's Daughters Highlights**
